

Bathroom Renovation Service Website

Developed a fully responsive website for a bathroom renovation service using WordPress and Elementor. The website is designed to showcase various bathroom renovation solutions, providing potential customers with comprehensive information about services offered, project portfolios, and contact options. The focus was on creating an engaging user experience to help the client attract new customers and showcase their expertise.

Key Features:

- **Responsive Design:** The website features a fully responsive layout, ensuring optimal viewing and usability on desktops, tablets, and smartphones.
- **WordPress CMS:** Utilized WordPress for easy content management, allowing the client to update service offerings and project galleries independently.
- **Elementor Integration:** Designed with Elementor to create a visually appealing interface, enhancing user engagement and navigation.

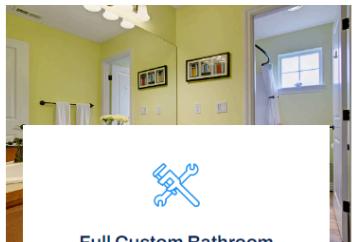

- **Service Showcase:** Detailed sections for various bathroom renovation services, including design consultations, installation, and plumbing services.
- **Project Portfolio:** Included a gallery of completed projects to highlight the quality and variety of the company's work.
- **Contact Forms:** Integrated user-friendly contact forms to facilitate inquiries and service requests from potential customers.

- **Tools and Technologies Used:**

- WordPress
- Elementor
- Contact Form plugins
- SEO plugins for optimization
